Arrowhead Finders Requested to Report

The Archeological Society of Maryland would like to hear from Washington area residents who have discovered arrowheads or other Indian relics near their homes.

The Society's Southwestern Chapter is compiling a list of locations occupied by prehistoric Indians in the vicinity of Washington and the Potomac Valley.

Persons discovering relics may notify Chapter chairman William A. Tidwell, 3701 Blackthorn st., Chevy Chase, who also is interested in hearing from persons interested in joining the Chapter.
